Regards A: There's not much in their docs that tells you how to enter the in-product license key for all of the products together in a single installation. Here's how I'd solve the problem: Open the TEMPLATE installer and place the Nodelock xml file inside the BIN folder and rename to nodelocks.xml Open the CATIA installer, do the usual steps to get to the licensing menu and select "Import Certificate to register nodelock licenses" Read the file in and then accept the license on the license key page. The license should now be applied on that installation. Simple, Beautiful, and Durable Harish's Products Harish's Watches and Jewellery are entirely handmade, and therefore not like any other. They are unique in every sense of the word and have their own meaning attached to them. Every piece is numbered, unique and crafted from the finest quality elements. Only when you touch the product, you will get a feeling of its uniqueness, and the difference between Harish's and the other watches. Harish's are available in some of the most prestigious names of the town. A great amount of time and effort is put into ensuring quality. Not just quality but simplicity and durability are the terms to describe our products. We strive to be the best and most reputable watch and jewellery makers of town and have been doing so since our inception. Our watches are unique and are the best in their category due to quality, design and most important durability.
