Free Countdown Timer is a lightweight software application built specifically for helping you use a countdown timer for timing your activities. It sports a clean and intuitive layout that allows you to configure the dedicated parameters with minimum effort. The program gives you the possibility to work with multiple countdown

---

timers at the same time and add a new one to the list by specifying the time in hours, minutes, and seconds. What's more, you can make the tool stop or restart the timer at the end of the task, enter a custom text message, show the countdown timer in a floating window, as well as select between different preset sounds or upload an audio file from the computer (e.g. MP3, OGG,

---

WAV, FLAC). Additionally, you can make the utility run a user-defined application (e.g. EXE, COM, BAT), play or stop the audio file, alter the volume, repeat the sound, activate the snoozing mode, wake up the computer from the sleep mode, as well as turn on the power monitor function. Last but not least, you are allowed to clone, edit, or delete the countdown timer, cancel the snoozing

---

mode, enable or disable the countdown timers, run the tool at Windows startup, make the app remain on top of other utilities, pick the snoozing time., use hotkeys for a better control over the entire process, and choose the playing time for the alarm. During our testing we have noticed that Free Countdown Timer carries out a task very quickly and without errors. It leaves a minimal

---

footprint on system resources, so the overall performance of the computer is not affected.

All in all, Free Countdown Timer proves to be an efficient time management application that comes packed with a handy set of features for helping you work with multiple countdown timers. If you want to skip the installation steps, you can download the portable version of the program, which can be

---

found here. Features: -Show the countdown timer in a floating window -Play or stop the countdown timer from the app -Change the sound -Trigger the snoozing mode -Activate the alarm -Add a new countdown timer -Alter the sound parameters -Change the snoozing time -Alter the sound parameters -Enable or disable the countdown timers -Run the program at Windows startup

---

-Play or stop the countdown timer from the app -Show the text message -Activate the alarm

What's New in the Free Countdown Timer?

Bring all your favorite activities into a single, universal and effective time tracker! Your time is precious. Have you ever had time to write down all the activities you do each day? Want to find out how much

---

time is taken for certain tasks?  
Who's taking advantage of your  
time? Coast Guard crews have  
rescued six people who were  
swimming in rough surf near  
Surfers Point in Corona del  
Mar. Two people were rescued  
by boat, one person was  
rescued by a vessel and four  
people were rescued by  
helicopter, according to the  
Coast Guard. It was reported at  
about 3:30 p.m. that three

---

swimmers were taken to the surf zone by a Coast Guard vessel and two others were rescued by helicopter. At about 4:25 p.m., crews from San Clemente received an alert from the Corona del Mar lifeguards about a group of surfers in the surf zone who were struggling. A Coast Guard boat, crew from the Coronado lifeguard unit, and two CH-46E Sea Knight helicopters from the

---

## San Diego Air Station

Lifeguard arrived at the scene and began search and rescue.

The Coast Guard boats were forced to return to San

Clemente with three people in the surf zone who had been in distress for a short time and could have been lost in the

Field of the Invention The present invention relates to a bicycle pedal capable of pressing a pedal body to operate a bicycle rear wheel via a drive chain. 2. Description of the Background Art A bicycle pedal of this type is disclosed in U.S. Pat. No. 6,655,339. This bicycle pedal is constructed in a structure that the pedal body is

---

integrally attached to a crank arm to have the pedal body able to pivot around a pedal axis extending in a transverse direction of the bicycle. When the pedal body is pressed in this structure, the pedal body pivots
