
TUTORIAL: Installing OSX Snow Leopard 10.6.6i on Hackintosh VirtualBox Mode

where is the macports? where is the macports?where is the macports?it worked when i was on mac os x snow leopard 10.6.2 intel/amd by hazard, snow leopard 10.6.6 sse2/sse3 intel only by hazard, hazard snow leopard iso download, hazard snow leopard 10.6.6i, 10.6 snow . Snow Leopard V10.6.2 Intel/AMD, 10.6.6.i, 10.6.6 for Intel, Intel SSE3, Intel SSE2, Intel, Hazard, Mac . can someone assist with this? i just installed snow leopard 10.6.6 in my pc and it came up with the feeling of getting a virus so i ran the v.10.6.2 combo update which updated my PC to 10.6.6 but now it crashes when i open safari and then shut down, so i cant

update to 10.6.6.i because my PC will crash, any help would be great. thanks.

Aug 26, 2009 I just installed snow leopard v10.6.2 on my pc (by using itunes) and everything works fine. I actually updated my Snow Leopard installer to 10.6.6 and it worked fine too. However, when I then tried to install the intel & amd updates, I got some problems. The updates were installed successfully, but after I closed them, the system wouldn't boot. I did the chkdsk and even tried to boot from the USB. None of the solutions worked. So, I tried to use the 10.6.6 combo updater, and it updated the system. I then restarted the PC, but when I went

to safari, it would crash (after closing).
So now, I'm stuck with no updates, no
system stable, no stable snow leopard
v10.6.2 (which I used to update my PC
to 10.6.2). Any help would be great.
