In order to connect remotely the camera to computer, software makes it possible to display the live view stream from the camera over the network to a viewer connected to your notebook computer. HpTruevisionHdCameraDriverFreeDownload The view from the camera is displayed on the local or remote computer connected to the camera and the video stream can be monitored or recorded by the operator.

HpTruevisionHdCameraDriverFreeDownload The main screen of the viewer software has only a few items that are related to video streaming.

HpTruevisionHdCameraDriverFreeDownload The menu bar for the main screen of the viewer software has the items as listed below.

HpTruevisionHdCameraDriverFreeDownload Item. Action. Display. SD card. Show remote devices. Save. Exit. The software has two key functions: - view and/or record live views from the camera, over the network, when connected to a notebook computer. - download and play back from SD card all live views recorded with the camera. HpTruevisionHdCameraDriverFreeDownload With the camera connected to the notebook computer the following items can be observed on the viewer: - the list of the still frames recorded on the video stream. - all still frames are displayed with the option to preview, transfer or save them.

HpTruevisionHdCameraDriverFreeDownload "In order to connect remotely the camera to computer, software makes it possible to display the live view stream from the camera over the network to a viewer connected to your notebook computer. " HpTruevisionHdCameraDriverFreeDownload The view from the camera

is displayed on the local or remote computer connected to the camera and the video stream can be monitored or recorded by the operator.

HpTruevisionHdCameraDriverFreeDownload The menu bar for the main screen of the viewer software has the items as listed below.
