To identify clinical and biological predictors of seizures in patients with acute ischemic stroke. A prospective study was conducted on 456 consecutive patients with ischemic stroke who were enrolled in the study from October 2007 to January 2009. The diagnosis of acute ischemic stroke was confirmed with computed tomography, magnetic resonance imaging, and/or magnetic resonance angiography. The patient's conditions (life, activity) were recorded daily during the first 15 days after ischemic stroke onset. A seizure was defined as a transient alteration in mental level, autonomic dysfunction, or skeletal muscle activity associated with apparent cause. Clinical predictors of seizures included age older than 65 years ($p=0.028$), overall Glasgow Coma Scale (p

The first-person survival horror game stars journalist Miles Upsher who wakes up to a world ravaged by the illness that left most people blind. You can play as Miles Upsher, or even as the villain Amara who can inhabit the Upsher's body. We got to play part of the game at a pre-release event in Toronto and took some photos of the game in action. Check out some of those in the gallery below. Outlast 2 is coming to PC on February 19 on Xbox One and PS4 and March 6 on Windows PC. You can read our preview from the Outlast 2 pre-release event here. Are you excited for Outlast 2?
