unzip:.. Parasoft. Inc.1. Field of the Invention This invention relates to a process for producing lithium metal for a battery, and a lithium battery containing the lithium metal. 2. Description of the Prior Art The demand for lithium ion batteries (for use in electronic devices) is increasing, and the demand for lithium ion battery will continue to increase in the future. The lithium ion battery has been improved in performance through the scaling down of battery structure size. However, scaling down to a diameter of 2 mm or smaller is difficult because the electrode capacity is insufficient. In the past, lithium metal for a battery has been produced by the following method. Lithium metal powder is produced from a lithium source and an activator (such as iron, chromium, aluminium and molybdenum) and the powder is then packed into a container. The container is heated under pressure, and the lithium source is thus reduced to produce lithium metal. In this method, the lithium source, the activator and the container must be arranged in a predetermined relationship, and the reduction of the lithium source must be performed smoothly. Furthermore, the lithium source and the activator must be reduced to a uniform size to give a stable operation. However, the lithium source is unstable and carbon is produced from the lithium source as the lithium source is heated or because of contact with carbon. The lithium source and the activator are reduced unevenly. Since lithium is thus reduced unevenly, a uniform particle diameter can not be obtained.Fellow Lymphedemics: I can't stop crying. I lost my 13 year old daughter to Leukemia 5 months ago. She had a 2 year fight with her disease and now she's gone. I feel like an empty shell. God let me keep her for three years but now he has taken her away from me. I know God didn't take her away because of me. She was a very good Christian girl. Her friends will miss her. She had a big, loving family. It's just so painful. I feel like a life has been wasted Funniest thing that's happened: As my husband's car was pulling into our driveway recently we noticed our mail had been delivered. As we got out of our car and started to open our mail the neighbor next door walked by and said "I've never seen that girl with her hair looking like that. She must
