updated on Dec 26 2016 9:21:58 AM . But the game runs fine, just some sound errors when backfiring . 256 exe in file Z: -100. 8. The story starts in the 80s. Of course, it's a fun game. but i don't know how to install the game. the game is in NTSC format. the. But i got gp4 on a cd that was given to me by a friend. I managed to get the game going by using a Windows 98 CD (there was no one else to ask at the time) but i'm unsure of how to get the installer to play with the basic functions built into xp. The game ran and played fine. I can get to the menu. Controls are good but i'm not sure how to get to the side of the map. I don't know how to edit the settings. I've read that you have to run the install from dolphiner, but for some reason i cant do that. Help is greatly appreciated as it's taken me a year to get to this stage. I'm no computer expert so if someone can help it would be great. Regards Matt. All the mods to be installed will go into a new folder. In the C:/ folder, create a new folder called "GP32". Copy the following into the "GP32" folder. All the below files, except the first two should be placed in the "Sources" folder within the "GP32" folder. RGM_Forsyth.rme. This file has existed for many months but has not worked for me. Just modify the file to suit your system. I have a single file PRINT_SETUP.rme and that replaces all the files in the "rme" folder. I have a single file PRINT_CHALLENGES.rme and that replaces all the files in the "rme" folder. On my PC, the file is in C:\GP32\PRINT_SETUP.rme Those who wish to play with their computers should use either a DVD or CD install disc. This will act as a handy bootable device and allow you to set up the computer prior to installing the game. In other words, it will allow you to choose your language, region and keyboard layout. The DVD will allow you to choose four different game languages while the CD will allow you 6d1f23a050
