Godswar Private Server Setup

Jun 3, 2020 - Hey guys, in the title, I didn't intend to develop a private server for godswar... the file is attached, I'm including 2 files, the encryption/decryption package. and ... I'm trying to develop code to start a server. I already tried PHP and JAVA. I think the best way is to use something like Apache, but I don't know how to run it or what it does. Also, I'm not sure with the files I've included if there's anything here that won't work. Thanks in advance for your help! My code: var_dump(http.open("host".arg1 + ".php", function() { // code to create server. var file = '
